WAR ESTABLISHMENTS.

SECTION I.

A.—NOTES ON WAR ESTABLISHMENTS.
B.—NOTES ON TRANSPORT IN THE FIELD.

Digitized by Google

Digitized by Google

A.—NOTES ON WAR ESTABLISHMENTS.

1. The establishments given in these tables are the normal war establishments of units and formations. Equipment for mobilization is provided on this normal scale.

2. A special establishment for each unit is also given in the notes to the tables. This shows the additional transport required to carry one blanket, and one reserve ration per man, and tents on the authorized scale. Should the special scale be considered necessary, it will be specially ordered, on or after mobilization, by army head-quarters.

3. Staff units, depôts, hospitals, &c., required for the lines of communication are shown in these tables as an essential adjunct to any army operating in the field; but, as the number of such units required for any particular force cannot be specified until the locality and plan of the campaign are known, the establishments of these units are given here merely as a guide.

4. Should it be necessary to mobilize a force on a scale which is neither the normal nor the special scale given in these tables, details of the necessary alterations in, or additions to, normal establishments will be issued by army head-quarters. If, for instance, engineer work in the theatre of operations is likely to be heavy, it may be necessary to increase the number of Engineer officers serving with an army-corps or an infantry division.

5. Water carts, forming part of the establishment of supply columns, are intended for general use. They will be distributed according to the orders of the general officer commanding. For campaigns in hot countries, the number of water carts will be increased, if considered necessary.

6. Servants in the field are allowed as follows:—

For each dismounted officer .. .. .. } 1 servant or bâtman.
For each mounted officer with only one horse .. }
For each mounted officer with two or three horses, 2 servants or bâtmen.

7. The medical arrangements for units which have no medical officer attached will be as follows:—

Infantry divisional staff—in charge of a medical officer to be detailed by the principal medical officer.
Infantry brigade staff—in charge of a medical officer with a battalion of the brigade to be detailed by the general officer commanding.
Cavalry brigade staff—in charge of a medical officer with a regiment of the brigade to be detailed by the general officer commanding.
Cavalry brigade ammunition column—in charge of the medical officer with the battery of Horse Artillery.
Corps Engineers—in charge of the medical officers of the Royal Engineers regimental staff (*see* page 65, note 3).
Mounted infantry—in charge of a medical officer with a regiment of the cavalry brigade to be detailed by the general officer commanding.

Digitized by Google

Infantry brigade supply column—in charge of the medical officer with the infantry divisional supply column.

Cavalry brigade supply column—in charge of a medical officer with a regiment of the brigade to be detailed by the general officer commanding.

8. The veterinary arrangements for units which have not a veterinary officer attached will be as follows:—

Infantry divisional staff—in charge of a veterinary officer to be detailed by the principal veterinary officer.

Cavalry brigade staff—in charge of a veterinary officer with a regiment of the brigade to be detailed by the general officer commanding.

Battery of Horse Artillery with an independent cavalry brigade—in charge of the veterinary officer with the cavalry brigade ammunition column.

Corps Engineers—in charge of the veterinary officers of the Royal Engineers regimental staff (*see* page 65, note 3).

Mounted infantry—in charge of the veterinary officer with the cavalry brigade supply column.

Infantry battalion with corps troops—in charge of the veterinary officer with the army corps staff.

Other infantry battalions—in charge of the veterinary officer with the infantry brigade staff.

Field bakery—in charge of the veterinary officer with the corps troops, supply column.

Bearer company } in charge of the veterinary officer in charge of the
Field hospital } supply column which supplies the unit.

II.—RATIONS FOR OFFICERS AND MEN.

DETAIL of rations for each officer and man carried with units, and in supply columns.

How carried, and for what purpose.	*Field ration.* 1 lb. meat preserved. { 1¼ lb. bread, or 1 lb. biscuit.	*Grocery ration.* 4 oz. groceries.	*Emergency ration.* 9 oz. net., 12 oz. gross.	Remarks.
On man	½ (*a*)	..	1	(*a*) The unexpended portion of his previous day's ration. (*b*) Carried in panniers. (*c*) The wagons carrying this ration are organized as a distinct section in each supply column.
In regimental supply wagons for issue on arrival in camp.. ..	1	1 (*b*)	..	
In regimental baggage wagons ..	..	1 (*b*)	..	
In Supply Columns to replace issues	1	1	1 (*c*)	
	2½	3	2	

NOTE.—If specially ordered (*see* note 2, page 3), a reserve ration of preserved meat and biscuit is also carried.

Digitized by Google

III.—FORAGE.

DETAIL of forage carried for each draught and riding horse with units, and in supply columns.

How carried, and for what purpose.	*Corn ration.* 12 lb. corn.	Remarks.
On horse	½ (*a*)	(*a*) The unexpended portion of its previous day's ration.
In regimental supply wagons, for issue on arrival in camp	1	
In Supply Columns, to replace issues	1	
Total carried with unit, and in Supply Column..	2½	

NOTES.—1. The above table is applicable to a country where hay is obtainable.

2. In addition to the above, each wagon of 2nd line regimental transport, and of supply columns, will carry 1 bale (80 lb.) of patent forage, in the front box, as a reserve for its own draught horses. This reserve ration is not carried for riding horses, or for horses in 1st line regimental transport.

IV.—FUEL.

(*a*.) In the regimental supply wagons, 1 lb. per man, for issue on arrival in camp or bivouac.

(*b*.) In each supply column, 1 lb. per man, to replace issues.

The above is only intended for kindling purposes, and to supplement the wood to be obtained by the troops in the country.

NOTES.—(1.) For veterinary arrangements, *see* page 4.

(2.) A battalion which is allotted to a garrison will mobilize at the above strength of 1,010 all ranks, but the transport serjeant, machine-gun serjeant, drivers, wagonmen, and machine-gun detachment will be distributed among the companies, and there will be no public riding, draught, or pack horses.

In place of the regimental reserve of ammunition laid down in Table XXIV.A, 200 rounds per rifle, and 40 rounds per pistol, will be drawn from Army Ordnance Department magazines in the district in which the battalion mobilizes.

TABLE XXIV.A—INFANTRY.

SUMMARY of Transport and Ammunition for a Battalion of 8 Companies.

Transport.	No. of vehicles.	Drivers.	Draught horses.	Pack animals.
Machine gun and carriage	1	1	1	...
Carts { forage, for tools	1	1	2	...
Carts { small-arm ammunition	4	4	8	...
Carts { Maltese, Mark V., for medical stores ...	1	...	1 (*k*)	...
Wagons, G.S. { for baggage	1	2	4	...
Wagons, G.S. { ,, stores	1	2	4	...
Wagons, G.S. { ,, supplies	2	4	8	...
Cobs or mules for ammunition	...	2	...	2
Spare	...	2	4	...
Total (*l*) ...	11	18	32	2

Ammunition.			No. of rounds.	No. of boxes.
Cartridges, ball.	·303 ...	on the soldier	100	...
		on the machine-gun carriage	4,000	...
		regimental reserve	...	68 (*m*)
	pistol ...	on the soldier	12	...
		regimental reserve	...	2 (*n*)

(*a*) Excluding officers, the details of the battalion staff are distributed amongst the eight companies. These details, except the staff-serjeants, sleep and mess with their companies unless otherwise provided for. All regimental bâtmen are fully armed and trained as soldiers.

(*b*) The orderly-room clerk may be of the rank of corporal, in which case he will be deducted from the serjeants and added to the rank and file. In a battalion of Guards the orderly-room clerk is replaced by an extra orderly-room serjeant.

(*c*) No band accompanies a battalion of Guards on active service. Two colour-serjeants replace the band-serjeant and band-corporal in the battalion staff of a battalion of Guards. The 20 bandsmen must, in this case, be deducted from the battalion staff, and the 20 privates who replace them be added to the detail of the companies in the field. The total rank and file per company of Guards will thus become 108 for four companies, and 109 for the other four.

(*d*) Two men of the battalion (one to be lance-corporal) trained for the duties will be placed under the orders of the medical officer. The private leads the animal which draws the cart for medical stores.

(*e*) One subaltern of the battalion acts as transport officer.

(*f*) Battalions with pipers will have one serjeant-piper and five pipers in addition.

(*g*) If tents, blankets, &c. (*see* note 2, page 3), are specially ordered, add 14 drivers, 7 wagonmen, and 28 draught horses.

(*h*) These details mobilize with the unit.

(*i*) These details will not mobilize with the unit unless specially ordered.

(*k*) Led by orderly (*see* note (*d*)).

(*l*) *See* note (*g*), 7 additional G.S. wagons will be required.

(*m*) Sixteen boxes of rifle ammunition will be carried in each small-arm ammunition cart, and two boxes on each mule, making a total of 68 boxes at 1,100 rounds per box. On the march, when roads are good, the four boxes carried on the mules may, to save the mules' backs, be temporarily placed in the forage cart for tools.

(*n*) At 240 rounds per box.
